Ko Matariki e ārau ana | THE GATHERING OF

MATARIKI

Mānawa maie te putanga o Matariki
Mānawa maie te ariki o te rangi
Mānawa maie te Mātahi o te tau

HAIL THE RISE OF MATARIKI
HAIL THE LORD OF THE SKY
HAIL THE NEW YEAR

In the past two decades Matariki has become a nationwide phenomenon, with numerous events occurring each winter to celebrate the predawn rising of this star cluster.

Professor Rangī Matamua is Associate Dean Postgraduate at the Faculty of Māori and Indigenous Studies at the University of Waikato and a leading expert on Māori astronomy.

Rangī will give a free two hour hui that will include images, video and animations and detailed knowledge about Matariki, sharing his knowledge and highlighting connections between cultural knowledge and science.

Royal Society Te Apārangi and Marsden Fund Te Pūtea Rangahau a Marsden are delighted to support the Ko Matariki e ārau ana The Gathering of Matariki in Aotearoa and Australia.
