

Marine Metre Squared Workshops

Marine Metre Squared

Join us for an introduction to the Marine Metre Squared project (www.mm2.net.nz) and find out how your school or community group can gather valuable data that will lead to greater understanding and improved management of your local shoreline.

- Find out more about your coastline and what lives between the tides through hands-on activities and educational resources.
- The perfect project for schools and community groups looking to engage in environmental action.
- Survey methods will be reviewed on the seashore (bring your boots).
- Data entry on website and phone will be introduced, along with data analysis tools
- Free resources to take away.

Porirua

Wednesday 14 March, 3.45 - 5.45 pm
