

BUILDING A COMMUNITY-BASED RESEARCH INFRASTRUCTURE

NZ ORCID CONSORTIUM ADVISORY GROUP | 26 MARCH 2017

Laure Haak
Executive Director, ORCID
L.Haak@orcid.org
orcid.org/0000-0001-5109-3700

Imagine a world where:

You could search the internet and find all of a researcher's work with a single query – in any browser

A researcher could autopopulate standard publication and grant forms – any platform, any country

You could in near real time see what your researchers or grantees are publishing – and also know their current affiliation and other funding

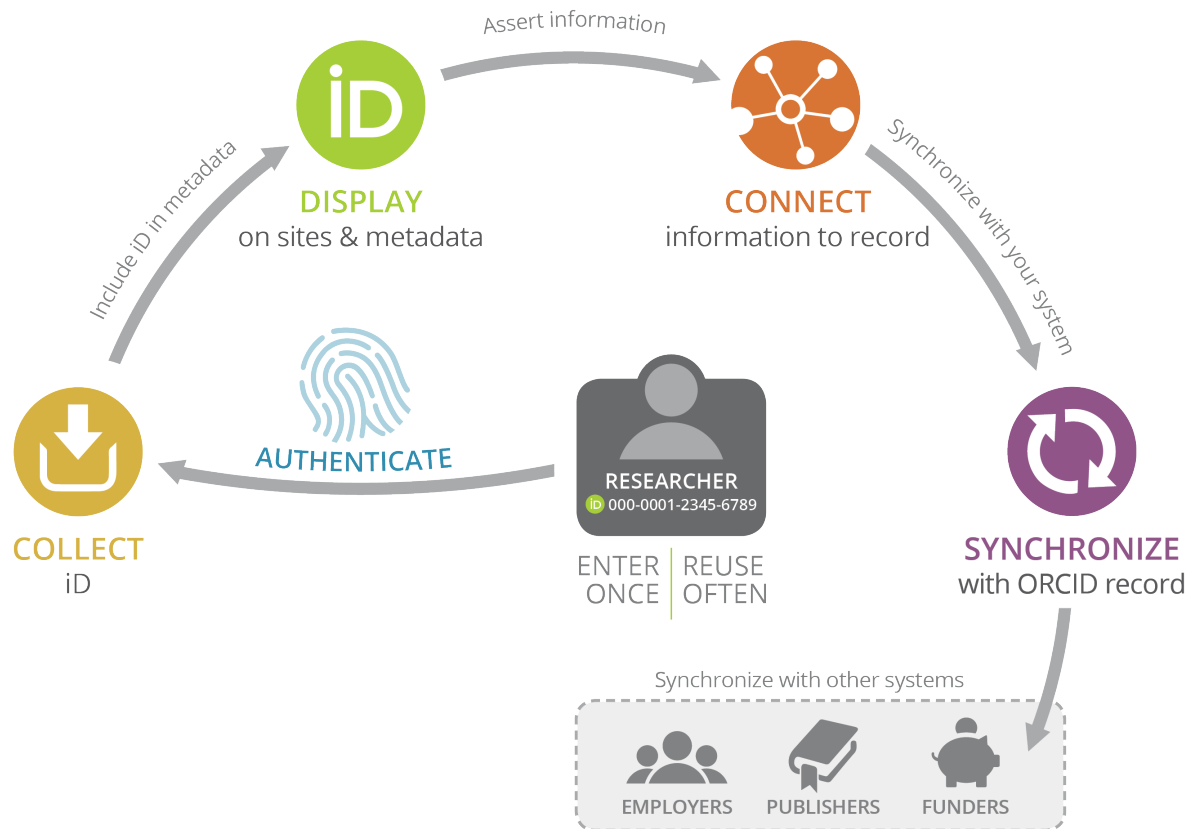

WHAT IS ORCID?

- An identifier for researchers
- A registry
- A set of standard procedures for connecting researchers to their affiliations and activities
- A committed community building connectors
- An international-scale open research effort

ORCID's vision is a world where
all who participate in research, scholarship, and
innovation are uniquely identified
and connected to their contributions and
affiliations across time, disciplines, and borders.

PERSON-CENTRIC CONNECTIONS

⌵ Sort

University of Oxford: Oxford, Oxfordshire, United Kingdom

(Bodleian Digital Library Systems and Services)

Source: ORCID Integration at the University of Oxford

Created: 2015-05-05

- Completing a thesis or dissertation
- Receiving an award, certificate, or training qualification
- Sharing research via articles, datasets, and activities
- Presenting at a conference
- Applying for funding or using research facilities
- Reviewing and expert panels
- Joining a new community or organization

THE ORCID COMMUNITY

- Over 3.1415 million researchers
- 642 members from 40 countries, and in addition to New Zealand, national consortia in the UK, Denmark, Finland, Netherlands, Belgium, Germany, Italy, Taiwan, Australia, New Zealand, and 4 regional consortia in the US
- Over 550 integrations across sectors of the research community

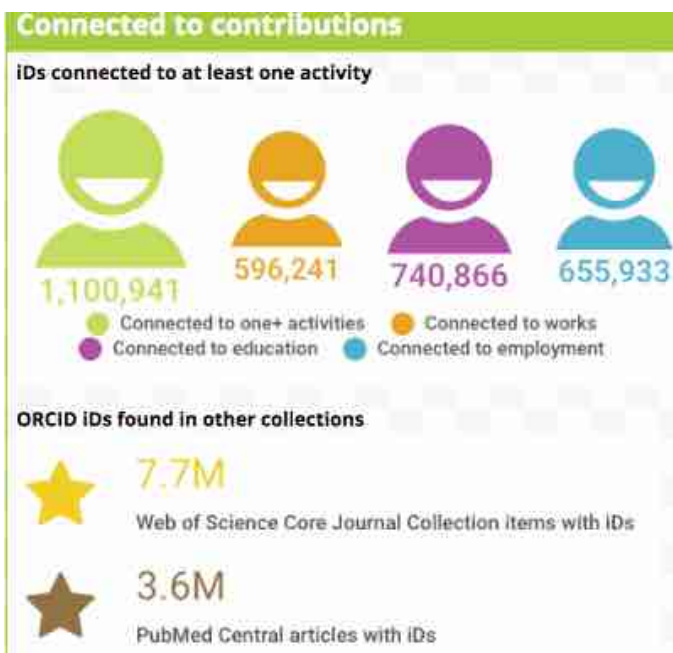

An abstract graphic on the left side of the slide, featuring a dark grey background with a complex network of glowing green lines and dots, resembling a molecular structure or a digital network.

IN ASIA PACIFIC

Collectively, APAC accounts for 19% of ORCID members; 26% of registry access

- Very active consortia in Australia & NZ
- Steady membership growth in Japan, Singapore, Hong Kong
- Increasing awareness and registry usage throughout Asia

In 2016, 3 consortia launched; 5 regional workshops; 8 international conferences and more

2016 MILESTONES

- Publisher open letter
- ORCID SSO and Federated login
- API 2.0 – item level queries
- 14 regional workshops, 2 Outreach meetings, PIDapalooza
- Trust Program launched
- Collect & Connect launched
- 99.9% uptime

COLLECT AND CONNECT!

With hundreds of our members globally building ORCID identifiers into their systems, as well as some funders and publishers now requiring ORCID iDs, researchers are increasingly likely to encounter ORCID in their day-to-day life. We developed the Collect and Connect program to streamline the integration process and foster a shared user experience. This ensures researchers and our members understand what ORCID is and why and how to engage.
